

JONES HALL

Just like its namesake, Jones Hall Performing Arts Center in Texas, this house exudes classical elegance. A large two storey 1880s Victorian/Edwardian home in the stylish, centrally located Tamboerskloof area, with generous proportions (sleeps 8) and recently restored to her original glory with contemporary comfort in mind.

Dark hard wood floors, high ceilings and crown moldings compliment the elegant and tasteful furnishings. It is sophisticated enough for the executive yet casual enough for a family. Enjoy your morning coffee from the balcony off the main bedroom with a view of Table Mountain or entertain on the back patio with its own outside fireplace. You are sure to enjoy exploring Cape Town while staying in this beautiful house. Jones hall is located 5 minutes from the Waterfront and Camps Bay and only 3 minutes from downtown. FEEDBACK FROM GUESTS

First, Jones Hall is everything and more from what is depicted. We were very pleased with the accommodation and wish that we had spent our entire stay there. The room arrangements were perfect for my parents, us and 4 children. I plan to write a very positive internet review when I get a chance. Cheryl was very nice about meeting us in the morning so that we could drop off our luggage. We also enjoyed the cafe next door.

We really loved your house and enjoyed our stay there. I was stunned by how big the house is (the high ceilings makes it feel even bigger) and really liked the tasteful furnishings and decorations. We loved the location, a very short walk to Long Street, where all the life is, but far enough not to hear the noises. We also felt the area was safe and had no problems at all. Thank you for making us feel at home away from home and this is amazing considering we where thousands of miles away. We would definitely recommend it to friends and family visiting Cape Town.
